Dear Scott, 4/19/97

I'd bot heard that Posner is going to enter the Ray fray. Did hear that O Stone wants to, bit he and Ray's lawyer, I'm told, did not see eye to eye. So, I'm very glad to get that clupping.

I think that with all else like it that the ARRB is going after the Zapruder film, which has been accessible at the Archives, is more of their stunting to make it look as though they are going after assassination evidence when there id none of that in what has been disclosed.

I fund those Lil Smith columns fron Newday's interestijg but can't find them if you have copies and without great effort can send me new copies.

About Judith Campbell Exner. And she did lie her head off.

She is suing somebody for libel.

I thonk Kitty Kolley.

Many thanks and best to you all,

Harold
